Training in Obstetrics and Gynaecology

LOG BOOK

Approved by
The European Board and College of Obstetrics and Gynaecology

TO BE COMPLETED AFTER EACH YEAR OF TRAINING AND SENT WITHIN THREE MONTHS THEREAFTER TO THE ASSESSMENT COMMITTEE (CERTIFICATION BOARD)

Surname (in capitals), first name of trainee :

................................................................................................................................................
................................................................................................................................................

Dates of beginning and end of year of training :

........../........./......... (day/mo/yr) - ........../........./......... (day/mo/yr).

Name and address of department :

Year :
.............................................................................................................................................

Year :
.............................................................................................................................................

Year :
.............................................................................................................................................

Year :
.............................................................................................................................................

Year :
.............................................................................................................................................

Year :
.............................................................................................................................................
CONTENT OF THE TRAINING PROGRAMME

GYNAECOLOGY DURING AT LEAST 1 1/2 YEAR
of which at least 6 months during the last 3 years of training.

OBSTETRICS DURING AT LEAST 1 1/2 YEAR
of which at least 6 months during the last 3 years of training.

It is recommended to gain experience also in OTHER FIELDS OF THE SPECIALTY, such as reproductive medicine, breast diseases, gynaecological oncology, prenatal medicine, urogynaecology, gynaecological and obstetric ultrasound.

NOT MORE THAN 1 YEAR OF THE TRAINING SHOULD BE SPENT IN RELEVANT RESEARCH OR IN ANOTHER SPECIALTY.

Specialities that are eligible in this regard are:
abdominal surgery, endocrinology, urology, neonatology, medical genetics, pathology.

Other specialities: only after prior agreement of the Certification Board.

IT IS HIGHLY RECOMMENDED TO HAVE PART OF THE TRAINING (MAXIMUM : 1 YEAR) IN A DIFFERENT COUNTRY.

TYPE AND MINIMAL NUMBER OF TECHNICAL ACTS:

It is difficult and completely arbitrary to define the ideal number of technical acts carried out during training; it is preferable to define the minimal number of these acts.
The EBCOG Working Party on Postgraduate Training and Assessment considers the following experience to be the minimum for competence as a specialist:

OBSTETRICS:
- Antenatal ultrasound examination 200
- Normal labour and delivery 100
- Assisted vaginal delivery (forceps, vacuum extr., breech) 40
- Caesarean section 40

DIAGNOSTIC PROCEDURES:
- Colposcopy 50
- Hysteroscopy 25
- Gynaecological ultrasound examination 100

GYNAECOLOGICAL SURGERY:
- Diagnostic laparoscopy or sterilisation 40
- Minor laparoscopic surgery (ectopic preg., ov. cyst) 20
- Hysterectomy (abdominal : 25 minimum, vaginal : 15 minimum) 40
- Breast surgery including that for cancer1: 20

It is even more important to define the spectrum of acts for which the trainee has developed sufficient skills. This spectrum encompasses "minor" acts (e.g. colposcopy) as well as "major" acts (e.g. hysterectomy, caesarean section). The person in charge of the training is best placed to assess the skill developed by the trainee for a given act. The capability of the trainer to assess trainees will be evaluated by a visiting subcommittee.

1Only in those countries where this is part of gynaecological practice.
TARGETS FOR THE FIRST YEAR OF TRAINING

description by trainer and tutor of what is expected in terms of knowledge, technical skills and fulfilment of tasks at the end of this year of training.

To be completed at the beginning of the year of training.

Year:  20...... -   20......

EVALUATION OF CLINICAL AND TECHNICAL SKILLS

Every target defined in the EBCOG recommendation on training and assessment has an expected competence level that must be achieved. The level of competence ranges from observation (level 1) to independent practice (level 5).

Many of the targets do not require an assessment of every competence level and shaded boxes indicate these. Trainees can choose whether or not to tick the shaded boxes as they progress.

Certain targets do not require the trainee to be level 5 (Independent). These are identified by a black box. The open targets require your tutor or trainer to check your competence and sign you off. When you feel ready for this it is your responsibility to organise with your trainer, for these targets to be observed.

When an entire module is completed (excluding black boxes) request the educational supervisor to sign the completed module.

SCORING SYSTEM:

<p>| | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>

CUMULATIVE LIST OF SCIENTIFIC MEETINGS
AND COURSES ATTENDED BY THE TRAINEE
(entire duration of training; to be up-dated yearly)

e.g. :

3. Advanced Course in Gynaecological Endocrinology, University of Nijmegen, the Netherlands, 14 – 16.10.2000.
CUMULATIVE LIST OF PAPERS READ AT SCIENTIFIC MEETINGS
(entire duration of training; to be up-dated yearly)
(A MINIMUM OF 1 AS 1ST AUTHOR IS REQUIRED)

e.g. :

National Congress of the Belgian Society of Gynaecology and Obstetrics, Brussels, Belgium,
04-05.02.1999.

CUMULATIVE LIST OF SCIENTIFIC PUBLICATIONS
(entire duration of training; to be up-dated yearly)
(AT LEAST 1 AS 1ST AUTHOR IS REQUIRED)

e.g. :

SURGICAL REPORTS

Each trainee will keep in a separate book copies of all reports pertaining to acts performed as first assistant or as surgeon, to be produced if necessary.
